Management Company:
MDO Management Company S.A.

Objectives & Investment Policy

The investment objective of the sub-fund Coeli SICAV II – European Opportunities is to achieve long term capital appreciation.

The Sub-Fund invests in equity and equity related investments (including derivatives and index futures) in companies where the Investment Manager believes there are significant potential for value appreciation. The Sub-Fund strive to have a concentrated portfolio of equities.

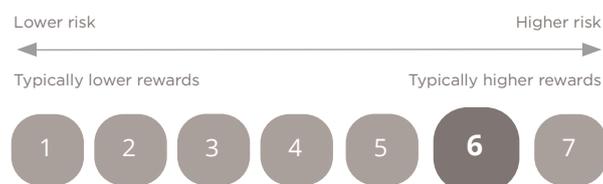

There will be a particular emphasis on companies located in Northern Europe including Germany and Benelux (Belgium, the Netherlands, and Luxembourg). The Sub-Fund may also, if there is an attractive opportunity, invest in equities or equity related products listed in the United States, however not more than 25% of the Sub-Fund's net asset value.

The fund does not distribute dividends. All income is reinvested in the fund.

The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk & Reward Profile

About the indicator: The synthetic risk/reward indicator shows the relationship between risk and potential reward at an investment in the Sub-Fund. The synthetic indicator is based on the fluctuations in the Sub-Fund's value over the past five years. Where a full return history is unavailable the indicator is based on the anticipated volatility of the Sub-Fund.

About the Sub-Fund: The Sub-Fund belongs to category 6. This means that the Sub-Fund is subject to high risk in respect of rises and falls in value. Category 1 does not mean that the Sub-Fund is a risk-free investment. The Sub-Fund may over time shift to both the right and the left side of the scale. It is because the synthetic indicator is based on historical data which is not a guarantee for future risk/reward.

The Sub-Fund is an equity fund that mainly focuses on investments in Europe. This is generally characterized by high risk, but also potentially high return.

The synthetic indicator mainly reflects the rises and falls of the assets the Sub-Fund has invested in.

Risks not captured by the indicator: Investors in the Sub-Fund need to take the following risk factors into particular consideration:

Liquidity risk – There is a risk that the Sub-Fund may not be able to timely liquidate its holdings at a reasonable price.

Counterparty risk – The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Sub-Fund to financial loss.

Currency risk – The fund invests in securities that are issued in currencies other than the base currency of the fund. As a result the fund is subject to currency risk, which arises from changes in the exchange rates.

The above mentioned list of risk factors is not exhaustive. Other factors can influence the pricing of the underlying securities and therefore this Sub-Fund.
