What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.
